COMPUTER TECHNOLOGY,
PRAVETS**

SKILLS

- C/C++
- Html и Css
- Rust
- Python
- Java
- SQL

LANGUAGES

- English (Fluent)
- Spanish (Basics)

ABOUT ME

I graduated my Bachelor's degree in Computer and software engineering in 2024 and I am currently pursuing my Master's in the same field, with the development of a desktop music player app. Even though I lack professional experience, I am extremely motivated and dedicated to the software development process. I wish to apply my passion, by joining an ambitious team and contribute to the creation of innovative projects.

MY PROJECTS

Cassette

Desktop music player app that leverages Rust for the audio playback and uses web technologies for the user interface.

Droplet

Android reminder app. It implements Java to calculate the optimal water intake and spread the reminders evenly throughout the day, by taking into account the user defined data.
