EDUCATION

2020-2024
TECHNICAL UNIVERSITY SOFIA

- Bachelor in computer and software engineering

2015-2020

VOCATIONAL SCHOOL OF COMPUTER TECHNOLOGY, PRAVETS

SKILLS

- C/C++
- Html and Css
- Rust
- Tauri
- Python
- Java
- Android
- SQL

LANGUAGES

- English (Fluent)
- Spanish (Basics)

ABOUT ME

I graduated with a Bachelor's degree in Computer and software engineering in 2024, with the development of a desktop music player app and I am currently pursuing my Master's in the same field. Even though I lack professional experience, I am extremely motivated and dedicated to the software development process. I wish to apply my passion, by joining an ambitious team and contribute to the creation of innovative projects.

MY PROJECTS

Cassette

Building on Tauri as a framework, I developed a desktop music player app that leverages Rust for the audio playback logic and uses web technologies for the user interface.

Droplet

Developed an Android reminder app, that uses Java for the logic and the built-in Android xml capabilities for the interface. By storing and accessing user data in shared preferences, the app is able to calculate the optimal water intake for the day and spread the reminders evenly.
